- Good: 19
- Poor: 1
How was the image movement?

- Very smooth: 41
- Smooth: 19
How was the quality of sound?

- **good**: 26
- **poor**: 23
- **very poor**: 1
How was the program?

- Very good: 34
- Good: 24
- Poor: 1

Total responses: 59
Was this conference program meaningful?

- Not meaningful: 1
- Meaningful: 22
- Very meaningful: 36
Will you attend another live demonstration session next time?

- Yes: 35
- Probably yes: 23
- Probably no: 1
- No: 1

Total respondents: 59
Feel free to write any comments you may have.

- Preferred a larger image from the camera on the outside
- The second case took too much time
- Nice conference!
- hardly understood what operators said because of poor microphone system
- The sound was not clear. It's difficult to hear voice.
- very good presentation.
- I want to observe another singleport vats
- very interesting session, have ever
- I want to see the live longer.
Feel free to write any comments you may have.

Regarding surgeons’ voice, I hope to improve the quality of their voice and time lags.

The sound from Shang Hai may be interrupted while surgeons were talking. I thought the live system should be improved next time.

This was the first chance to watch importantly vats for me. I appreciate Dr. Suda, the chair of the symposium for this opportunity.

May be consider elongate the session in order to see all critical part of operation.

Very interesting and informative

It’s amazing! I’m very glad to come here!

Other than some interruption in voice, everything is great including arrangement and quality of images.

Thanks for attractive program. An inevitable part for meaningful congress.

Thank you for the great live broadcasting!
