- **38%** very good
- **62%** good
Will you attend another teleconference session next time?

- Yes: 85%
- Probably yes: 8%
- Probably no: 8%
If you found any problems in teleconference, please write any comments you may have.

During the connection testing we encountered network problem from Kyushu University where the vidyo server is located.

TEMDEC team have resolved the network on time.

This morning we have connection problem in temdec server.

Suggest to limit presentations to 10mins per presenter. So if there is 60mins of presentation there should only be 5 speakers maximum.

the internet links is down at entire kyushu university, however it was restored 10 minutes after 9, so far overall the event is smooth

Thank you for giving me the opportunity to participate in this tele-conference. If video movement becomes more smooth, it will be better.

Good session

Please help to provide the Agenda/Program of topics earlier. Thank you.

every thing was good but some time some sites did not mute there mic so its little bit disturbed otherwise its good

We ran out of time previously
