Thank you very much for the teleconference. It was very interesting with the video of the cases also. We advice to keep the same format!

Sound quality from Vladivostok team was bad. Program was excellent, especially with conclusive summary from Prof. Yao on every question.

We would be glad to have brief lectures, not only comments from Japanese experts.

Very nice format of the conference

Everything is good, great event.

Let's spend less time on introduction, more on medical issues and experts opinions. Teleconferences of Chinese colleagues are more effective.
