I guess next topic will be about real, concrete problem that each institutes in Africa have just now.

Great conference

A long time slot was prepared for discussion, but not much feedback was given from the African Side. Especially what their real needs are and what they request TEMDEC to help them with.

I really enjoyed the session. Learnt a lot. My hope is that the system gets better.

The timing of the last conference was not convenient for us as it was at the peak of our outpatient clinic activities and there were a lot of distractions. We had to leave before the end, so we could not get a summary of the presentations. Lagos team.

None for now
