

<p>【Event】 The 10th Asia Telemedicine Symposium -1</p>	<p>【Comments】 Even though this is the first time in Vietnam, Asia Telemedicine Symposium was successfully organized with 108 registered participants from 22 countries. 37 reports about multiple issues on telemedicine were transmitted to 5 countries with 10 sites (including 5 sites in Vietnam). Quality of the connection and the arrangement at the main venue throughout the symposium, as well as the quality of the presentations and comments, have received many positive feedback from participants.</p>
