

<p><b>【Event】</b> The Progress of Neonatal Medicine in Asia</p>	<p><b>【Comments】</b> Pediatric cardiac surgeons from various Asian countries (Indonesia, Malaysia, Korea, Taiwan and Japan) made lectures and discussed their own problems in the surgical management of neonates with complex congenital heart disease. Although their problems and concerns were quite different among developing and developed countries, we realized that we could support and cooperate to solve those problems among us.</p>
<p><b>【Date】</b> 2017.01.22</p>	
<p><b>【Venue】</b> Kanagawa Children's Medical Center (Japan), National Cardiac Center Harapan Kita (Indonesia), TJ Health Alliance (Taiwan, Province of China)</p>
