

<p>【Event】 Neurology Conference with Indonesia</p>	<p>【Comments】 This teleconference had marked proud history for Kyushu University. On behalf of Indonesian Neurologist, I would give high appreciation to Kyushu University for helping the development of Indonesian Neurology. TEMDEC and all of the IT centers from various universities in Indonesia had been doing excellent job providing this teleconference. Hopefully this event could be done routinely afterwards.</p>
<p>【Date】 2017.02.07</p>	
<p>【Venue】 University of Indonesia (Indonesia), Brawijaya University (Indonesia), Sam Latulangi University (Indonesia), Gadjah Mada University (Indonesia), Kyushu University Hospital (Japan)</p>
