

<p>【Event】 The 43rd APAN Meeting - Technology</p>	<p>【Comments】 We shared the Gamification technology and discuss the feasibility of healthcare education. We also tried to test and evaluate another videoconference platform as a potential software for telemedicine activities. A new video server "JoinView", which TEMDEC started to use, was demonstrated with sharing their video clips and tested the platform function at two connecting sites. In the future, it is expected that this video sharing service will be used in Medical Workgroup activity.</p>
<p>【Date】 2017.02.13</p>	
<p>【Venue】 India Habitat Centre (India), Univ of Malaya (Malaysia), National Univ of Malaysia (UKM) (Malaysia), Tsinghua Univ (China), Cho Ray Hosp (Vietnam), National Taiwan Univ (Taiwan), National Applied Research Laboratories (NARLabs) (Taiwan), The Institute of Liver and Biliary Sciences (India), Advanced Science and Technology Institute (Philippines), Univ of Guadalajara (Mexico), Kyushu Univ Hosp (Japan), Kyushu Univ Hosp engineer's home ; Fukuoka (Japan)</p>
