India Habitat Centre (India), Patan Academy of Health Sciences (PAHS) (Nepal), Tilganga Institute of Ophthalmology (Nepal), Tribhuvan Univ Institute of Medicine (Nepal), Nepal Research and Education Network(NREN) (Nepal), Mahidol Univ Siriraj Hosp (Thailand), Chulalongkorn Univ (Thailand), Seoul National Univ Bundang Hosp (Korea, Republic of), Advanced Science and Technology Institute (Philippines), Univ of Indonesia (Indonesia), Kyushu Univ Hosp (Japan)

【Comments】
This workshop is regularly organized on the final day of APAN Medical Working Group Training Program. Of two-day workshop this time, we had introductions from newly participated institutions on the first day, and session reviews by chief engineers on the second day. This time we had some new trials, dividing trainers and trainees into some groups, and each group took charge of technical support for each session. We hope all engineers got a lot of experience from this program.

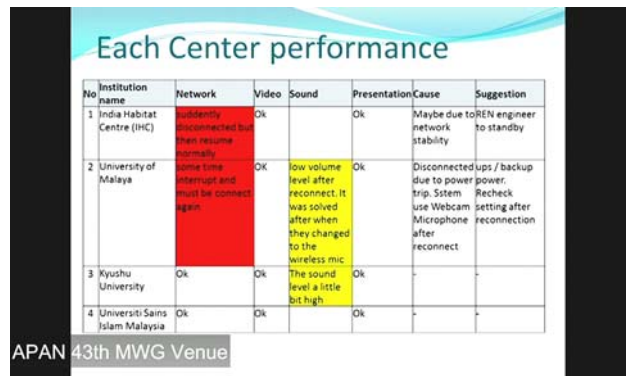

Mr. Zahir, one of the chief engineers makes a comment.

Monitor shows 9 sites. 11 sites are connected in total.
