

<p><b>【Event】</b> Training Report of Endoscopy and Engineering with Chile</p>	<p><b>【Comments】</b> This is the first time I have to manage a session where Chile, Colombia, Costa Rica and Japan are together, what made this an important challenge for me. Even though things came out pretty well, we had some issues that will have to be improve and practice (streaming, coordination with attendants, greetings and closing the session) that, only experience will teach us. In summary, this event came out reasonably well. Thanks forever.</p>
<p><b>【Date】</b> 2017.02.21</p>	
<p><b>【Venue】</b> Kyushu University Hospital (Japan), Universidad Catolica de Chile (Chile), Clinica Alemana (Chile), University of Costa Rica (Costa Rica), University Javeriana Cali (Colombia)</p>
