

<p>【Event】 Training report teleconference with Brazil</p>	<p>【Comments】 This conference closes the one-month training in Fukuoka. We had a connection problem with the Base Hospital, but in general the session was good, the presentations worked with good sound and image quality. It was an excellent experience, I'm taking with me new knowledge and skills. I would like to thank everyone from the TEMDED team for their hospitality and for sharing their expertise. And, also to Dr. Shimizu, for the invitation and opportunity.</p>
