CME Examination

Telemedicine

TELEMEDICINE ACTIVITIES IN HUE UNIVERSITY HOSPITAL

Telemedicine with Kyushu University Hospital (Oct, 2011)

TELEMEDICINE ACTIVITIES IN HUE UNIVERSITY HOSPITAL

Telemedicine with Kyushu University Hospital (Dec, 2015)

What we learned from APAN 41 ENGINEERING WORKSHOP

- Coordination of work (work group skills)
- Through all sessions in the venue, we can get more experiences:
 - ✓ How to organize a professional telemedicine
 - ✓ How to control many sites
 - ✓ Learn a lot of things from other engineers.

OUR PLAN

□ WE WANT:

- Tele-Conference: for meeting with outside universities and hospitals
- Tele-Training: for CME training courses (inside and outside of country)
- **Tele-Consultation:** for difficult cases with other hospitals (inside and outside)

*** Characteristics in our region:**

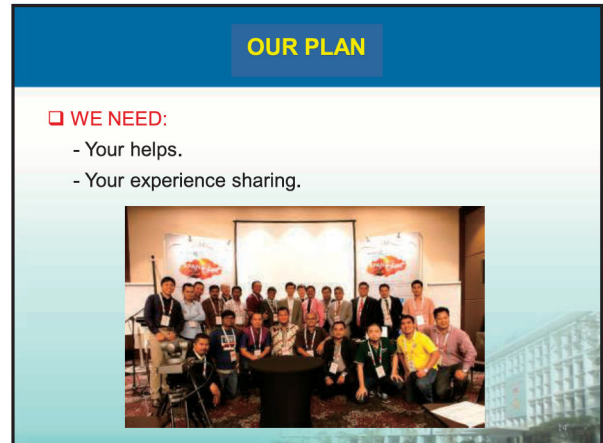

- New "user"
- Telemedicine system only set up at central hospitals
- Difficult in transportation.

OUR PLAN

□ WE NEED:

- Your helps.
- Your experience sharing.
