Topic	Thyro-related Ophthalmopathy: Advances & challenges			
Contents	Ophthalmology			
Style	Conference			
Connection Method	Vidyo			
Server At	TEMDEC server			
Streaming Address				
Brief Description	Thyro-related Ophthalmopathy is a common disease. Despite many recent advances in pathology, clinical examination, labor test, diagnostic imaging and management, there are still a lot of difficulty in diagnosis, prognosis and treatment of this disease. In this session, many interesting discussions should be presented on the up-to-date advances and challenges in pathology, diagnosis and treatment of Thyro-related Ophthalmopathy.
