#1329 Public Lecture relating Persistent Cloaca

**Event**
Public Lecture relating Persistent Cloaca

**Date**
2021.02.27

**Venue**
Kyushu University Hospital (Japan),
Niigata University (Japan),
Osaka Prefecture University Habikino Campus (Japan)

**Comments**
The 1st public lecture entitled “What is Persistent Cloaca?” was held online. Four speakers gave lectures from Kyushu University, Niigata University and Osaka Prefecture University. About 200 people including patients, their families, doctors, nurses and government officials participated in this lecture. Since the information of this rare intractable disease is very limited, this online meeting was very meaningful for the participants.
