The 3rd Fukuoka Prefecture Webinar on Intractable Diseases

[Connecting institutions]

Kyushu University Hospital (Japan), Ichinose Family Clinic (Japan)

[Comments]

This event is held twice a year for healthcare professionals who take care of intractable disease patients in Fukuoka pref., aiming to establish medical cooperation that enables patients to be diagnosed at an early stage and to have a peaceful life at their homes. The topic was "transitional care for intractable diseases." Two doctors gave lectures as pediatricians and community health care providers. The event was well received, with the participation of doctors and other healthcare professionals from various fields.
