【 Comments 】

Kyushu University Hospital has established support systems that allows physicians having difficulty in working as full-time for various reasons to continue working as part-time. Dr. Nagayoshi gave a lecture on the current status and future of female surgeons. Dr. Velasquez and Dr. Tapia reported that Filipino female doctors can work with the support of family and nannies being employed at low wages. Dr. Chishaki reported on the working conditions and health of medical personnel conducted at five universities in Fukuoka and Saga. Dr. Nishikitani gave detailed presentations on medical accidents and working conditions among them.
