| <p>Kyushu University, Ito Campus (Japan),<br/>Ibun Sina Hospital (Sudan)</p>        | <p>A remote lecture from Sudan to Kyushu University medical students was given by Dr. Naoyuki Kawahara from Rocinantes, an authorized NPO. It was a great opportunity to learn about the current state of Sudan's medical care and life and to think about the future of medicine. Many students actively asked questions. Thanks to the efforts of TEMDEC, the lectures did not feel any distance between Japan and Africa.</p> |
