【 Comments 】

Dr. Keiji Kuba, who has been appointed as the Professor in the Department of Pharmacology, Kyushu University Graduate School of Medical Sciences on October 16th, 2022. He presented parts of his excellent works, including development of a novel animal model phenocopied SARS-CoV-2. In the discussion section, he responded our questions regarding immunophenotyping using single cell RNA sequencing, which is a great interest of many studies in our department.
