Kyushu University Hospital (Japan),
The National Institute of Medical Sciences and Nutrition
(Mexico)

【 Comments 】

This year, medical students gathered in a lecture hall for the first time in recent 3 years. First, Dr. Tanimoto from Mexico gave a lecture on his telemedicine activities and discussed it with the students in English. Dr. Moriyama from Singapore gave a lecture on remote medical education and online medical care in Japan and abroad. Many students commented positively on the English-language lecture from Mexico.
