The 60th APAN Meeting- Internet of Medical Things

【 Connecting institutions 】	【 Comments 】
Grand Hyatt Hong Kong (Hong Kong), University of the Philippines, Philippines General Hospital (Philippines), Kyushu University Hospital (Japan), Philippine Council for Health Research and Development (Philippines), University of the Philippines Diliman (Philippines), Global Ultrasound Institute, USA (United States), Indian Institute of Technology Dharwad (India), Asia eHealth Information Network (Philippines)	The document highlights the participation of multiple institutions across Asia, the United States, and India. Presenters focused on the opportunities and challenges they face with Internet of Medical Things (IoMT). Key messages include the need for interdisciplinary collaboration, research support from funding agencies, and assurance of privacy and confidentiality while improving patients' access to IoMT. Overall, the document reflects an emerging collaboration around connected medical device development.
