The 60th APAN Meeting -Endoscopy / Russia 1

【 Connecting institutions 】	【 Comments 】
Grand Hyatt Hong Kong (Hong Kong), Yaroslavl Regional Cancer Hospital (Russian Federation), Kyushu University Hospital (Japan), Sapienza University of Rome (Italy), Mumbai Institute of Gastroenterology (India), Chulalongkorn University (Thailand)	This 'Art of Endoscopy' webinar guides endoscopists, gastroenterologists and surgeons to master endoscopic skills and become competent and confident practitioners. The concept is inspired by Japanese endoscopic philosophy, as Japan serves as a prime example of high-tech diagnostic endoscopy culture and tradition. As tranquil Japanese gardens promote creativity and concentration, modern endoscopy must focus on intricate details, such as patterns, scratches, notches, and color differences. Those who have achieved “enlightenment” in endoscopy can perceive all these details and grasp the secrets and tricks of the practice.
