10th Annual Meeting of International Society of Clinical Medicine: Symposium 2

【 Connecting institutions 】	【 Comments 】
Kyushu University Hospital (Japan), The University of Osaka Hospital, Suita Campus (Japan), Japan Institute for Health Security/ National Center for Global Health and Medicine (Japan), Kego Law Office (Japan)	As a part of the 10th Annual Meeting of the International Society of Clinical Medicine, this symposium was held under the theme of "International Patients and Japan's Universal Health Insurance: Moving Beyond Shared 'Moyamoya' (uncertainties)." We reviewed practical issues at the interface of residence status and insurance operations, including billing and unpaid medical costs. A legal perspective helped structure key questions on fairness and accountability, followed by a panel discussion on feasible directions. An online voting system was used to incorporate audience questions and opinions into the discussion in real time.
