The 61st APAN Meeting -Qualitative Research (AI)

【 Connecting institutions 】	【 Comments 】
Le Meridien Dhaka (Bangladesh), Kyushu University Hospital (Japan), Jhargram Government Medical College (India), All India Institute of Medical Sciences, Jammu (India), Smt. NHL Municipal Medical College (India), University of Kuala Lumpur Royal College of Medicine Perak (Malaysia)	It was our honor to participate in the APAN-61 MWG session. The event was 90 minutes long on the topic of how AI platforms can be used judiciously for conducting qualitative research. It was an early morning session, yet many participants from all over India and Malaysia attended the session. We tried to demonstrate each AI platform in detail for participants for their ease of use in academia. Although the time for interaction was limited, the event was a grand success and was well-received by all. Hope to participate again.
