The 61st APAN Meeting -MIS (Minimally Invasive Surgery)

【 Connecting institutions 】	【 Comments 】
Le Meridien Dhaka (Bangladesh), Siriraj Hospital, Mahidol University (Thailand), National Cancer Institute of Thailand (Thailand), Kyushu University Hospital (Japan), Bangkok Hospital (Thailand), Phyathai 2 International Hospital (Thailand), Surin Hospital (Thailand)	The 61st Asia Pacific Advanced Network (APAN) conference garnered, with experts and presenters from various Minimally Invasive Surgery (MIS) centers sharing impressive knowledge, techniques, and medical innovations. Siriraj MIS fellows also had the opportunity to exchange experiences and discuss challenges in enhancing patient safety and treatment efficacy. We extend our sincere gratitude to all the surgeons and engineering teams who shared their invaluable knowledge and experience, making this conference a truly enriching learning and inspiring platform. We look forward to seeing you again.
