The 61st APAN Meeting -TNP＆PALES

【 Connecting institutions 】	【 Comments 】
Le Meridien Dhaka (Bangladesh), St. Luke's Medical Center Quezon City (Philippines), Philippine Association of Laparoscopic and Endoscopic Surgeons (Philippines), Advanced Science and Technology Institute (Philippines), Kyushu U H (Japan), Medical Center Manila (Philippines), Consortium of Advanced Minimally Invasive Surgery, Manila (Philippines), San Pedro H of Davao City (Philippines), Marymount H, Meycauayan (Philippines), Manila Doctors H (Philippines)	The Philippine Association of Laparoscopic and Endoscopic Surgeons, through TEMDEC and APAN, conducted a session discussing surgical strategies and ever-changing technology. Several medical institutions shared their experiences, which focused on innovative and cost-effective minimally invasive surgical techniques, particularly those applicable in low-resource settings. The session concluded with remarks from Dr. Jeffrey Domino, reinforcing the importance of tele-surgical education and regional knowledge sharing.
