Cloaca Net Project: the 6th Public Lecture

【 Connecting institutions 】	【 Comments 】
Kyushu University Hospital (Japan), Shizuoka Children's Hospital (Japan)	The event was held under the theme “Connecting Support for Cloacal Disorders.” Dr. Miyata (Dept. of Ped Surg, Grad Sch of Med Sci, Kyushu U / Dept. of Nursing, Faculty of Health Sci) presented in detail the results of a qualitative study based on interviews conducted with nine patients with persistent cloaca and seven of their mothers. Ms. Nakamura (Dept. of Ns, Shizuoka Children’s H) delivered a comprehensive lecture on the importance and ideal form of long-term, comprehensive support spanning from birth through adulthood, emphasizing collaboration among affected children, their families, local communities, and healthcare providers. The meeting provided a meaningful opportunity for patients, families, and supporters to deepen their understanding of this rare and intractable disease and to share information and perspectives.
