The 38th Indonesian Neuroimmunology Case Teleconference

【 Connecting institutions 】	【 Comments 】
University of Indonesia (Indonesia), Sam Ratulangi University (Indonesia), Gadjah Mada University (Indonesia), Sriwijaya University (Indonesia), Airlangga University (Indonesia), Kyushu University Hospital (Japan)	A case conference was held between neurologists at Kyushu University Hospital and in Indonesia regarding a suspected case of combined central and peripheral demyelination and a case of myelin oligodendrocyte glycoprotein (MOG) antibody–associated disease. The conference included discussions on imaging review, additional investigations, differential diagnosis, and treatment strategies, facilitating shared expertise on these rare disorders.
