Medicine X Design

2023 Medicine x Design
Collaboration Seminar

Zoom Webinar

Japanese
and
English

2023. 11.6 (Mon)

13:00-15:00
(JST, UTC +9:00)

Design is expected to expand from the conventional target of "objects" to the "things" to plan how to build a comfortable and safe life, and further to the "visions" to envision a better society. The design of products to reduce the burden on medical professionals and the design of easy-to-understand explanatory materials and services to improve patient satisfaction are expected to collaborate in various fields of healthcare. This seminar will introduce advanced approaches to collaboration in design (art and technology) and the human resource development program implemented at Kyushu University to foster collaboration between the two fields. We look forward to the participation of medical professionals, students, and researchers.

The Future Opened Up
by the Collaboration of
Medicine & Design/Art

Moderator

International Medical Department, Kyushu University Hospital
Lecturer

Kuriko Kudo

13:00 - 13:10 Opening Remarks

International Medical Department, Kyushu University Hospital
Associate Professor **Tomohiko Moriyama**

13:10 - 13:40 Special Lecture 1 (20min) + Q&A (10min)

MedEd-Tech Nexus: Fusing Art, Science, and Technology in Medical Education

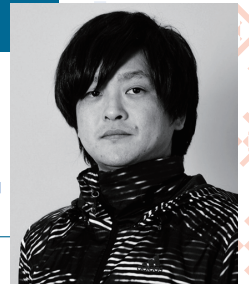

Director of Vejnitatphatana School, Medical Education Technology Center, Faculty of Medicine
Siriraj Hospital, Mahidol University. Assistant Professor, **Nopphol Pausawasdi**

13:40 - 14:10 Special Lecture 2 (20min) + Q&A (10min)

Needs and Challenges of Medical Design in Art Colleges

Department of Design Informatics, Musashino Art University
Associate Professor, **Hiroaki Oishi**

14:10 - 14:50 Introduction of Medicine x Design Project in 2023

Overview (10min)

International Medical Department, Kyushu University Hospital
Lecturer **Kuriko Kudo**

Progress and Achievement of Design (15min)

Department of Human Life Design and Science, Faculty of Design, Kyushu University
Associate Professor **Naoshige Akita**

Discussion (15min)

14:50 - 15:00 Closing Remarks

Department of Strategic Design, Faculty of Design, Kyushu University
Associate Professor **Hiroyuki Matsuguma**
