HANYANG UNIVERSITY

The 4th Asia Telemedicine Symposium

Date : 2010.12.18(Sat)

Venue: Conference Hall (6F), HIT(Hanyang Institute of Technology),
Hanyang University, Seoul, Republic of Korea

Dear Colleagues and friends

On behalf of the Organizing Committee, we have the honor to invite you to join the 4th Asia Telemedicine Symposium, to be held in Seoul on December 18, 2010. We have assembled an outstanding roster of speakers and a comprehensive scientific program. The symposium aims to systematically spread the new telemedicine system which utilizes high-level IT technology. This system is of great use to expose young doctors to new medical knowledge and to demonstrate the advanced skills with ease over the geographical distance. But this remote communication is only made possible by the collaboration between medical people and engineering staff. Although we meet frequently over the network, it is essential for all of us to meet regularly face-to-face to introduce our activities and discuss our plans for the next year. Through the symposium, participants enjoy deepening their friendship across their specialties and beyond nationalities in a comfortable and exciting city of Seoul.

Host : Hanyang University

Co-Hosts :

Kyushu University Hospital Telemedicine Development Center of Asia (TEMDEC),
