### 4. Sessions in Charge

You will be assigned to the “chief engineer” and/or “APAN venue local engineer” to support telemedicine sessions which will be demonstrated during APAN week.

“Chief engineer” will lead and establish audio-visual connection with all connecting sites. “APAN venue local engineer” is the engineers who take in charge APAN venue by communicating with the chief engineer of the session. Please check the following figure and ideal work flow. Systems and actual workflow will be different by sessions because each sessions will be lead by its own chief engineer. Details were discussed at the TET online meeting.

Engineers in a Program

#### Engineer's workflow (ideal)

**~1 month before**

- Chief engineer and local engineer will be decided.
- Chief engineer decide the system to be used.
- Engineers start to communicate.

**~1 week before**

- Chief engineer make technical announcement.
- Connectivity test will be conducted.

**APAN week**

- Venue setup  
(Network, Audio and Video System control)
- Prepare and work for technical support.

### 5. To deepen friendship in medical community

- Please be positive, communicate each other and mix around.
- If you have something worry about, please ask trainers of your group.
