PUBLIC HOSPITAL NETWORK

- 11,120 Communal Health Stations
- 755 Health facilities of other branches

Where is Thanh Hoa Eye Hospital?

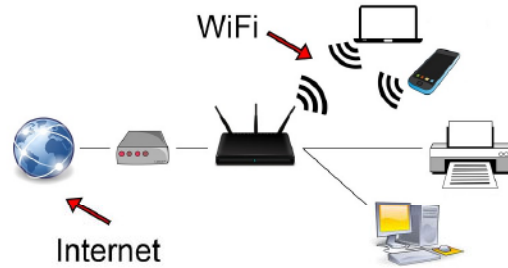

Thanh Hoa Eye Hospital?

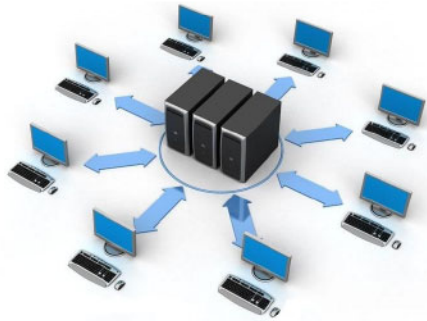

Information Technology Facilities

Have an internet connection at 75Mbps

There are about 100 computers connected to the internet

There are 2 servers used to run Hospital Information Management System

What's Teleconferen there?

1. Short information about Ninh Binh General Hospital

The hospital has about 1000 employees
Total number of planned beds: 700 beds
Actually Statistics: about 1500 beds.

The hospital has 44 departments, including 02 center, 26 clinical departments, 08 paraclinical departments and others.

Cooperation between NBH and JCPF

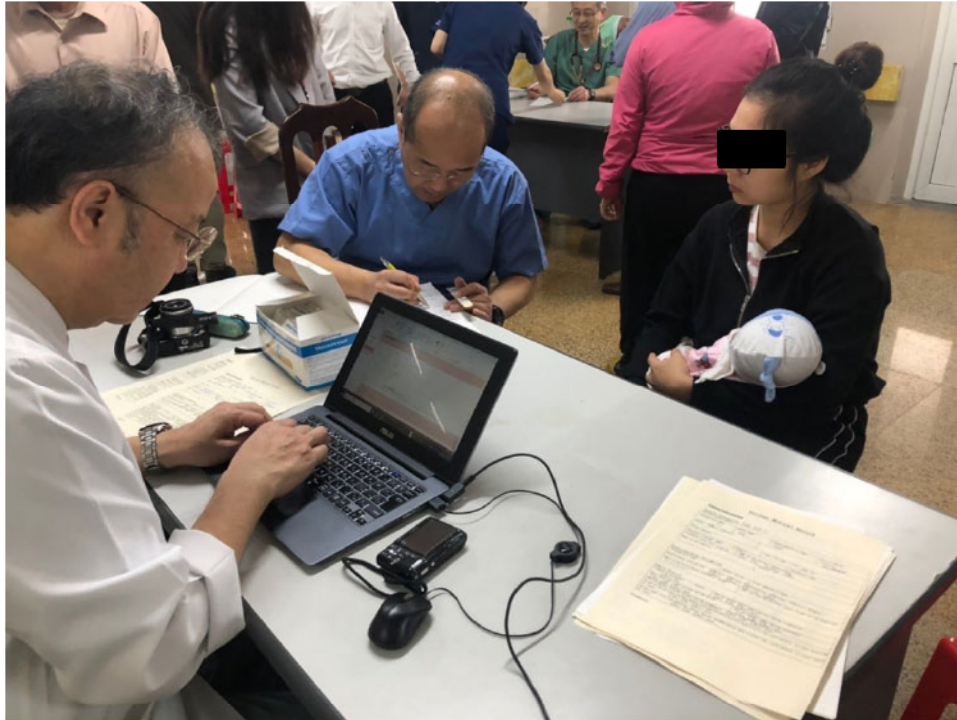

Since 1998, Kyushu University Hospital has sent doctors to join the Japan Cleft Palate Foundation (JCPF) in collaboration with Ninh Binh Provincial General Hospital to perform cleft lip and palate surgery for children.

- Every year in the beginning of the lunar new year (except in 2003, 2005, 2018 due to objective factors) the surgical team of JCPF appoints about 10 members including surgeons, anesthesiologists... to work at Ninh Binh General Hospital in the period of 10 to 14 days

From 2020 due to the impact of the covid 19 pandemic, this cooperation is suspended

Cooperation activities over the years

Organize screening examination for patients with cleft palate, consult and appoint surgery for patients

Teleconference with Kyushu University Hospital doctors after surgery
