- ❖ **I have experience with the teleconference to contact the University of Medicine (Taunggyi) and Kyushu University Hospital.**
- ❖ **Kyushu University Hospital invite for Engineer Training.**
- ❖ **I receive invitation from E-mail , and I came to (TEMDEC) Fukuoka in Japan at 3rd Oct, 2019.**

Date: August 22, 2019

Phyo Linn Aung,
University of Taunggyi

Dear Mr. Phyo Linn Aung,

I appreciate for your great contribution for academic exchange between Myanmar and Japan.
We owe you excellent cooperation and support.

It is our great pleasure to have you as a visiting engineer in Telemecine Development Center of Asia in Kyushu University Hospital from October 4 to October 30, 2019, to participate the training program for telemecine engineers. This training program will share the knowledge and skills in the field of telemecine. We also would like to further deepen our mutual understanding.

You will be provided with round trip flight ticket (economy class, discounted) and accommodation during your stay.

With best regards,

Shuji Shimizu, MD., Ph.D.
Director of Telemecine Development Center of Asia,
Chairman of International Medical Department,
Kyushu University Hospital
3-1-1 Maidashi, Higashi-ku,
Fukuoka 812-8582, Japan
Phone: +81-92-642-5857, Fax: +81-92-642-5087
E-mail: shimizu@surg1.med.kyushu-u.ac.jp

- ❖ **Our Training is hand on training for teleconferencing and engineers from TEMDEC train to our team daily.**
- ❖ **They have a lot of experience and teach our team kindly and helpfully.**
- ❖ **They teach our team knowledge sharing about software and hardware require for teleconferencing.**

Our Leaders and Myanmar Doctors & Engineer Group Photo

Myanmar Engineer Group Photo

- ❖ **Mainly use software in TEMDEC is Vidyo and they also train us H.323 and other system.**
- ❖ **Vidyo can easily connect by Streaming link .**
- ❖ **They also teach our team about troubleshooting on**
 - Sound Problems**
 - Image Problems**
 - Network Problems**
- ❖ **They also train how to prepared local venue setting in other remote country.**

Strength of Training in Kyushu University Hospital (TEMDEC)

- ❖ TEMDEC is completed with all infrastructure (Software, Hardware and Men Power)**
- ❖ All engineers from TEMDEC were well experience and they support many technical knowledge to our team.**

- ❖ I am confident that this training will be able to correct many of the mistakes that have been experienced before.**
- ❖ I hope that if I come home, I will do my best and will be able to pass on this experience to future generations.**
- ❖ So I really appreciate to all member of Kyushu University Hospital (TEMEDC) and Thanks a lot to every one in this Department.**
